  Completed in 2020

About Me

Dedicated and enthusiastic programmer with multiple projects and over three years of experience. Eager to learn new things, with a great interest in computer science and programming. Particular interest in learning computer networks and cyber security.

Projects

Website for Khelxa
2022-present 🔗

About Project :
Khelxa is a concept of a sports-streaming platform. I collaborated with some of my friends to develop a website for this platform. The languages used in this website are HTML, CSS, Js, and node.js.

Discord Bot
2021-2022 🔗

About Project :
I worked with one of my friends to create a bot for my discord server. It is a multi-purpose bot that can play music, send gifs, auto-respond to trigger commands, and many more. This bot is made using the discord.js library for node.js.

Personal Website
2020-present 🔗

About Project :
This is my solo project. I created a website for myself where I demonstrated my programming skills. I also incorporated my cv into the website. The languages used in this website are HTML, CSS, Js, and node.js.

Extracurriculars

October 2022	Participant in English Olympiad, organized by DP Cube Learning and powered by ETS TOEFL (National Rank: 25)
August 2022	Volunteer in the 7th Management and IT Fair by Universal Thought Consult
